Welcome to Besigheim

The members of the »Freundeskreis Asyl« would like to give all refugees a very warm welcome in Besigheim. Moving here means a lot of changes for you (and your family). The intention of this booklet is to be a guide for your first steps in your new hometown. We hope that the information we provide will help you to accustom yourself to your new surroundings.

What you will find on the following pages

- important information for your daily life in Besigheim
- useful telephone numbers and contact addresses
- Tips, which will help you in your daily routine

You probably have many questions: Who are my most important contacts? Where can I buy food and clothes? How does the public transport system work? How do people in Germany live and which social norms and behaviours do I have to follow?

This booklet will help you with these and other questions and you also find advice whom to talk to if you have more specific questions.

Furthermore you find information about authorities, supermarkets, doctors and the most important contacts in Besigheim. And of course we, the members of the »Freundeskreis Asyl«, are more than happy to help you with your questions and concerns.

It is indispensable for a successful integration process to be able to understand and communicate in German. That's why we would like to point out the language courses provided by the town council to you and highly recommend to make use of this offer. Additionally, there are a lot of things to do in Besigheim in your leisure time and we would be more than happy to welcome you to some of these activities.

Social norms – Living together respectfully and peacefully

It is indispensable for the integration process to learn the language and be able to communicate with the people.

The German Constitution is called **Grundgesetz** and it governs the legal system in Germany. The laws in the **Grundgesetz** were agreed in a democratic process and are therefore valid for every person living in Germany.

All your rights and duties are written down in the **Grundgesetz** and it is important for you to know the laws in the constitution and act accordingly, because otherwise you might commit a crime and get into trouble with the law.

THE MOST IMPORTANT LAWS

https://www.gesetze-im-internet.de/englisch_gg/englisch_gg.html#p0015

Article 1

[Human dignity – Human rights – Legally binding force of basic rights]

(1)

Human dignity shall be inviolable. To respect and protect it shall be the duty of all state authority.

(2)

The German people therefore acknowledge inviolable and inalienable human rights as the basis of every community, of peace and of justice in the world.

(3)

The following basic rights shall bind the legislature, the executive and the judiciary as directly applicable law.

Article 3

[Equality before the law]

(1)

All persons shall be equal before the law.

(2)

Men and women shall have equal rights. The state shall promote the actual implementation of equal rights for women and men and take steps to eliminate disadvantages that now exist.

(3)

No person shall be favoured or disfavoured because of sex, parentage, race, language, homeland and origin, faith, or religious or political opinions. No person shall be disfavoured because of disability.

Article 4

[Freedom of faith and conscience]

(1)

Freedom of faith and of conscience, and freedom to profess a religious or philosophical creed, shall be inviolable.

(2)

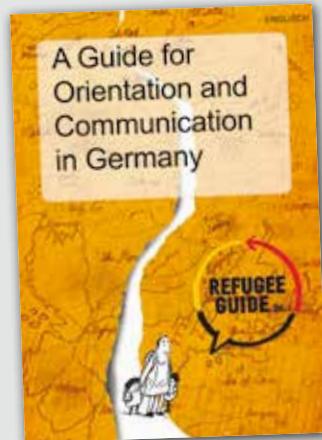

The undisturbed practice of religion shall be guaranteed.

(3)

No person shall be compelled against his conscience to render military service involving the use of arms. Details shall be regulated by a federal law.

Behaviour in public space

- **The property and possession of others have to be respected.** Don't enter foreign houses and buildings without permission. Don't harvest fruits and vegetables that are not yours. This is against the law and will be punished.
- **It is illegal to harass girls and women.** Don't talk to other people if they don't want to talk to you. Don't demand phone numbers against the will of other people. Flirting and even kissing are not necessarily a sign for the willingness of further physical contact.
- **Cleanliness is important here.** Don't throw your rubbish on the ground, but throw it in the bins. Also make sure you separate your rubbish/waste. There are designated bins for the different types of rubbish/waste.
- **Use public toilets.** Don't urinate in public.
- **Comply with the drug regulations.** Don't deal with illegal substances like drugs and also the possession is against the law.

You can download a detailed orientation guide for the life in Germany in your native language at the following link:
www.refugeeguide.de

The BAMF is also providing a starting guide for refugees in their »AnkommenApp« (free of charge) <https://ankommenapp.de>. It's a helpful guide for your first weeks in Germany.

An introduction to Besigheim

Doctors, Emergency calls, Pharmacies

In case of an emergency, you can call the emergency services.

The numbers 110 und 112 can be dialed directly from all landline and mobile phones without an area code and free of charge.

Emergency numbers

Police (Polizei)	110
Fire service (Feuerwehr)	112
Emergency doctor (Notarzt)	112

There is also a free of charge App for your Smartphone called »Notfallpraxen BW«

In case you need help during night, on the weekends or on public holidays you can also check the »Notfallpraxen BW« App for assistance near you.

Doctors

You can only go to a doctor, if you have a health insurance card, which you can get from the social worker. For the doctor, you have to make an appointment in person or on the phone.

All health insurance cards are only valid for one quarter (three months). The insurance card has to be shown to the general practitioner. If you need a specialist, you will get a referral from the GP to the relevant doctor. Children normally go to a pediatrician, a specialist for children's medicine.

The medical insurance company pays for medical check-ups during pregnancy, delivery and after care, as well as vaccination for the children. But there is also treatment the insurance doesn't pay the whole amount for. Please ask your social worker for further information.

* Christian holiday, which is on a different date every year.

General opening hours: Shops are closed on public holidays, so are schools and public departments. Doctors are always available for emergencies. Shops are opened on Saturday but with limited opening times. Schools and departments are closed on weekends, but doctors are available.

Tap water

Tap water is very clean in Germany, so you can drink it. That's why you don't need to buy water or boil it.

Mobile phone contracts

It is advisable not to sign phone contracts, because they have long contracts, which can't be cancelled. Furthermore, they're often very expensive. The cheapest way is to buy prepaid-cards like »Aldi Talk«.

Letters and documents

You should store all official letters and documents. Letters of agencies or departments may contain a specific time when you have to send them back. If you have any questions, please contact your social worker. If you have problems with understanding, the »Ressort Dolmetscher« of the »Freundeskreis Asyl« will help you.

Savings

It's important to make savings for example for a lawyer and to save money because a lawyer can be very expensive.

Cleanliness and Tidiness

You live together with many people, that's why cleanliness and tidiness are really important! Cleaning the kitchen, floor, bathroom and toilets are a weekly duty.

Cleanliness and tidiness are important!

Waste separation

Please notice that garbage always has to be separated.

Therefore different bins are used.

Flat (Flach, green bin): newspapers, magazines, paper bags, exercise books, handkerchiefs, envelopes, plastic bags, boxes, corrugated paper and polystyrene.

Round (Rund, green bin): drinking bottles, dish soap, shampoo bottles, yoghurt cups, milk bottles, juice bottles, vacuum packages, glass cans, empty packages of harmful substances.

Organic waste (Biomüll, brown bin): leftovers, bad food, bakery leftovers, fruit/vegetable leftovers, coffee filter, teabag, nut bowls, handkerchiefs, grass, plants, foliage, potting, compost, tree cut.

Residual waste (Restmüll, black bin): vacuum cleaner bag, swaddling clothes, broken toys, mirrors, CDs, cigarette stubs, small electrical equipment like hair dryer or a broken radio.

Don't put harmful substances in the trash!

Harmful substances are: car batteries, polish, solvents, spray cans, washing and cleaning products, oil filter, energy saving bulb.

Always give the harmful substances to the »harmful substances mobile«. Harmful substances are dangerous for our environment and kids! The »harmful substances mobile« comes 2-3 times a year to the bus stop across the street from the Fitkom, Jahnstrasse. You can ask your care taker for the times.

For batteries and energy saving bulbs, there are collection bins in every drug store like »Rossmann«.

Fire safety and behavior in case of a fire

Fire safety in your accommodation

- inform yourself about the emergency exits and escape plans
- inform yourself, where and how you make an emergency call (112 for fire department; how to make a call: name, place, how big the fire is, answer the questions like: who's calling, where did it happen, how many are hurt etc.)
- always keep the emergency exits free
- the parking and storing of objects at the emergency exits is illegal

That's the way to avoid fire

- don't smoke in bed, always smoke outside
- don't empty the cigarette stubs in the paper trash
- the use of cookers is illegal
- use your kitchen to cook
- don't set a fire on the area or inside your accommodation
- throw your trash in the designated bins

In case of a fire

- stay calm
- inform your flat mates
- leave the area immediately
- walk in ducked over position

Downloads

Pirate copies of copyrighted material like movies or music from illegal download-sites are against the law and will be prosecuted! Downloading from file sharing websites is also illegal and will be fined.

Working permission

A mandatory requirement to get a job is a valid passport. If you are allowed to work is dependent on your current residence status.

- For asylum seekers and tolerated people it's not allowed to get a job in the first 3 months. During asylum procedure you will receive a permission to stay. After 3 more months you are able to receive the working permission from your foreigners' registration office. In general it's required that the local job centre agrees to the working permit, your foreigner's registration office will get in contact with them directly.

- With the new integration law from 6th August 2016 the job hunt is getting easier. You can now also work as a temporary worker. The privilege check does not exist anymore (Before they checked if there are other eligible workers from Germany or other EU countries which should be hired before. The eligible check will return August 2019).

- Acknowledged asylum seekers are allowed to work without any restrictions, even independent jobs if they get a positive notification from the »Bundesamt für Migration und Flüchtlinge«. If the »Bundesamt für Migration und Flüchtlinge« placed a deportation ban, the foreigners registration office will decide in each individual case if they issue a work permit or not.

- You are allowed to work in an internship even without the allowance of the job centre. But only if the internship is not eligible for the minimum wage. It's restricted to a maximum of 3 months except it's a required internship during a school education or a study.

In case of questions please contact your social worker or your foreigner's registration office. The members from the »Freundeskreis Asyl Besigheim« will be happy to help you too.

Looking for a flat

- With the new integration law from 6th August 2016 there is a new regulation called »Wohnsitzauflage«. The »Wohnsitzauflage« is unique to refugees who have passed the asylum procedure and have received a final notification from BAMF (recognition, tolerance or deportation). The »Wohnsitzauflage« indicates the federal state and the place in that state. Target of the »Wohnsitzauflage« is that there are refugees all over the country and not only in specific states / places to prevent ghettos.
- As recognized asylum seeker you have to stay for 3 years in the state that you have been assigned to. You are not allowed to move to another place or state.
- If you find a job with a minimum of 15 hours per week and you have a minimum salary of 712 € or you have an apprenticeship or study, you are allowed to move to another place. The maximum time you are required to stay in one place is limited to 3 years. This affects all refugees that came to Germany after 1st January 2016 and have a recognition or work permit.
- After 3 years a recognized refugee can receive a residence permit for Germany if the refugee is able to speak fluent German (Level C) Without speaking level C you will receive another 3 year residence permission.

Flat hunt

You are only allowed to look for a flat if you have a residence permit.
